

HOSTED EXCHANGE

All the functionality of the enterprise level on-premise email solution.

A growing company needs a comprehensive mail solution that, in addition to sending and receiving mails, eliminates the worry of backups, power outages, theft, additional skill requirements and synchronicity across an array of business devices.

Cipher Wave's hosted exchange offering brings a new rich set of technologies, features, and services to the Microsoft Exchange Server product line, offering the perfect support for organisations evolving from a communication to a collaboration focus.

It provides clients with all the functionality of the enterprise level on-premise email solution without any of the headaches associated with upfront CAPEX costs or time and skill requirements required for deployment.

BUSINESS BENEFITS

- No setup fees – no upfront costs, monthly billing with no long term contract
