

MS LICENCES

Hosted software services that interact with Microsoft products.

CipherWave offers a variety of software services and hosted applications packages to meet every business's growing needs. These products display, run, access, or otherwise interact with Microsoft products.

As a Microsoft Partner, CipherWave is able to offer its customers access to Microsoft, VMWare, Citrix, Veeam and many other software packages on a flexible monthly pay-per-use model, rather than the traditional perpetual software licensing model, which requires the customer to commit upfront to purchasing software licenses for a 12 month – 3 year term.

BUSINESS BENEFITS

- Pay as you go with no up-front licensing costs
- Access to most current product versions
- Ability to offer software services worldwide
- Only purchase licenses for the users that require it

FEATURES

- Fully customised service
- Scalable and on-demand for easy access to additional user licenses
- Wide range of software products that provide access to the latest software updates

ABOUT CIPHERWAVE

CipherWave is a South African Internet Service Provider (ISP) that provides growing businesses with a range of solutions to help them connect, communicate and collaborate with their customers, employees and suppliers. We own and manage our own network infrastructure, which enables us to provide efficient, speedy service and support that our customers can count on 24/7.
